

ORNAMENTS BOUND FOR THE WHITE HOUSE

Sixty community organizations around the country received ornaments from the White House to be decorated and returned to Washington for use on the holiday tree in the Blue Room. Aryana Rios, 3, worked on an ornament yesterday with help from Henny Hong, a member of the TZE Club at the Arts and Music Society at Wellesley College. Participants at The Elizabeth Stone House in Jamaica Plain will contribute 10 ornaments depicting various “noteworthy and inspirational buildings or sites with historical significance or cultural importance,” as described by the organizers.
